SUMMARY

Full Stack Web Developer with a background in Change Management, Curriculum Development, and Education. Skilled in Public Speaking, Communication, Web Development and Agile Methodologies. Excellent verbal and written communication skills that allow me to effectively collaborate with customers.

TECHNICAL SKILLS

Languages: HTML, CSS, Bootstrap, JavaScript, jQuery, API, AJAX, Node, Handlebars, My SQL, Sequelize, MongoDB, Testing, Error Handling, React, MERN

Applications: Git, Express Servers, Heroku, Progressive Web Applications

PROJECTS

Vax Track | <https://github.com/ross1jk/shots> | <https://vaccine-app-project2.herokuapp.com/>

- Covid-19 vaccine eligibility, allows users to see current news on Covid-19, state numbers, provides a map if eligible, and will show a list of users registered in the users state. Users have the option to return to check their status.
- Core Responsibilities included using API calls to get data from MySQL database and render that information on a page. Contributed to layout and design of the application.
- Node, Sequelize, MySQL, Handlebars, CSS, jQuery, JavaScript, APIs, AJAX, responsive design

Cyclogoy | <https://github.com/ross1jk/cycle-ology> | <https://romerodi.github.io/cycle-ology/>

- An application that allows a user to find cycling specific routes for any location as well as forecasted weather. Users are able to save the route with their notes.
- Core Responsibilities included making API calls to get and post data in the MySQL database. Made API calls with Mapbox API to render a step by step cycling route and map visual.
- Node, Sequelize, MySQL, CSS, jQuery, JavaScript, APIs, AJAX, responsive design

EatDaBurger | <https://github.com/ross1jk/EatDaBurger> | <https://dry-eyrie-60767.herokuapp.com/>

- A burger tracking app that allows you users to track burgers they want to eat and have already eaten, users can add new burgers and change the status of a burger dynamically.
- Core Responsibilities included creating an ORM to get and post data into MySQL, designed the front end in its entirety, and created the views and partials in handlebars. This application was made by me alone.
- Node, Sequelize, MySQL, Handlebars, CSS, JavaScript, responsive design

EXPERIENCE

Change Manager Ford Motor Company

2019 – Present
Allen Park, MI

Leads all aspects of change management for the mainframes at Ford Motor Company, delivers essential communications internal and external to the Mainframe Services Department.
